## Transforming Global Operations & Boosting Efficiency

With 25+ years in global operations and business development, I lead organizations through high-impact operational transformations. I specialize in scaling businesses and optimizing performance through **AI**, **Robotic Process Automation (RPA)**, and **Lean methodology**.

## Core Areas of Expertise

- **AI Integration** – Implementing automation to streamline workflows and elevate performance
- **Lean Operations** – Driving continuous improvement for cost savings and efficiency
- **Strategic Execution** – Delivering scalable solutions across regions and verticals
- **Global Leadership** – Leading cross-cultural teams with a focus on results and retention

## How I Can Support Your Organization

- **AI & Lean-Led Operational Uplift** – Unlock 10–20% efficiency in service delivery
- **Fractional & Interim Leadership** – Available for **short-term or long-term** roles (COO, VP Ops, transformation leader)
- **Cost Optimization** – Streamline processes and resources to protect margins

## Industries Served

**BFSI | Healthcare | E-commerce | Telecom | Tech & SaaS | Travel | Hospitality | Airlines | Energy & Utilities**

## Selected Client Outcomes

- **Country Expansion** – Doubled headcount and improved margins by 10% as DR Country Manager
- **AI Transformation** – Reduced operational costs by 15% while boosting productivity 20%
